

The Role

As a Senior Business Central Functional Consultant, you'll be a key person in the implementation, configuration and delivery of Dynamics 365 projects to provide outstanding business solutions. You'll work in partnership with our clients, advising them how to use Dynamics to meet their business objectives within agreed timelines.

Responsibilities

- Facilitate workshops with a variety of users to clearly define the requirements, scope and desired outcome of the solution
- Take ownership of consultancy, configuration engagements and solution delivery, working with peers and clients to ensure successful delivery
- Develop solution prototypes to prove solution approach and design
- Confidently present and articulate the business value of your proposed solution to business managers, IT, end users and executives
- Provide quality assurance across solutions and client engagements as a value-add to the quality of solutions and deliverables
- Work in partnership with clients, advising them how to use information technology thus enabling them to meet their business objectives, overcome problems and gain an understanding of high-level technical concepts
- Perform and lead user acceptance testing and conduct training sessions with the client to help with change management and adoption of the solution
- Participate in pre-sales presentations and demonstrations on an ad hoc basis

Your Experience

- Extensive commercial experience in installation, configuration and delivery of Dynamics Business Central / NAV. Preferably supply chain experience.
- 5 years+ experience from similar position; ensuring that each solution is properly scoped, designed, implemented and tested to meet our client's business needs
- Confidence working directly with clients, and aptitude for listening, communicating and understanding
- A hunger for knowledge with the passion to learn about the latest innovations in the industry, which you will enjoy sharing with the wider team
- Strong presentation skills with the ability to effectively present and defend point of view
- Excellent verbal and written communications skills with a focus on delivering high quality solution – every time.

You will be driven, flexible and client focused. You understand the importance of working with clients and the E Foqus team to deliver great solutions, and you know how to communicate.

You understand you are not done before both sides are happy, and you know when to be flexible and when to be firm.

Who we are ?

E Foqus is a dedicated Business Central / NAV service provider – implementing, upgrading, partner take over + we develop apps to app source as well. We embrace flexible work settings, we encourage active participation – and we like having fun. The word trust means something to us; its not just an empty phrase. Our clients are scattered across the entire globe, with the highest concentration in North America.

You will be passionate, highly motivated and client focused. E Foqus will give you a place to grow and direct input into the development of not only client solutions, but also our internal business.

How we work

E Foqus is located in British Columbia, Canada and our business hours are in the pacific time zone. We are a “working from home” company and as long as you can work in the pacific time zone you can be located anywhere.

How to apply

If you are a passionate, highly motivated and client-focused Senior Business Central Consultant and are interested in joining our team, send your resume to info@efoqus.ca today. We can't wait to hear from you!
